

Wireless Tattoo Transfer Machine User Manual

Warning & Safety Information

- ⚠️ Avoid water: Keep away from humidity and water to prevent short circuit.
- ⚠️ Proper use: For tattoo stencil transfer only; do not use for other printing.
- ⚠️ Light handling: Prevent collision/fall; avoid damage to the printer.
- ⚠️ Store properly: Keep in dry, cool place; avoid high temperature and direct sunlight.

Product Name

Wireless Tattoo Transfer Machine

Brand and Model

1. Brand: TRUE STAR
2. Model: C-80

Instructions for Use

1. Prepare: Turn on the printer, connect via Bluetooth to your device.
2. Load paper: Insert the provided tattoo paper into the printer correctly.
3. Print: Select the stencil pattern on your device and initiate printing.
4. Store: Power off after use; store tattoo paper and printer appropriately.

Feature Introduction

1. Wireless Bluetooth: Seamless device connectivity—no cables required.
2. Thermal printing: Produces crisp stencils, enables rapid printing, and requires no ink.
3. Portable: Lightweight and compact for easy transport, ideal for studio or on-site use.
4. Value set: Includes 10 sheets of tattoo paper—ready to use out of the box.

Frequently Asked Questions (FAQs)

Q: Bluetooth connection fails? A: Restart both the printer and your device, then attempt reconnection.

Q: Printing is unclear? A: Verify correct paper loading; replace with fresh tattoo paper if necessary.

Q: No power? A: Fully charge the printer prior to use.

After-sales Service

1. Quality issues: In case of malfunction, physical damage, or similar defects, contact customer service for return or exchange.
2. Usage advice: For assistance with connectivity or printing issues, contact customer service for technical guidance.
